Want a different set of skins for your Nuka Cola or a new colour-scheme? This is it. It includes 17 colour-schemes and 22 skins, including Nuka Cola, chocolate, cola, orange, strawberry and more. In other words: a vast array of options for you to get exactly what you like. The MRF pack will be sold for €9.99, €14.99 and €24.99. Killing Floor 2 - Mrs. Foster Pack: Intrigued by a new girl in the office? Well, look no further. She's crazy hot, good looking and - you know what? you can have her as your girlfriend. Her Steam name is Mrs. Foster and she'll come with all her gear, including a Nuka Cola skin. The MRF pack will be sold for €9.99 and €14.99. Killing Floor 2 - Mrs. Foster Set: Ever wanted to have a change of look on your Nuka Cola? Well, this is the pack for you. It includes 23 skins for your Nuka Cola, in nine different styles. In other words: a vast array of options for you to get exactly what you like. The MRF set will be sold for €49.99 and €69.99. Official Site:www.killingfloor.com Steam Store:

About This Game The fun and exciting sequel to the critically-acclaimed co-op shooter game Killing Floor is now available on Steam for PC, Mac and Linux! On the surface, you would never know that the world of BioShock has been invaded by cloned mutants that have turned the city of Rapture into their own personal killing field. With no law and order, and one survivor against an army of deformed monstrosities, the only way to truly survive is by working together in a never-ending battle against unspeakable horrors. Engaging in cooperative multiplayer, where players can team up to tackle the game's unique puzzle-based combat, at-home 4-player co-op, or offline 4-player split-screen gameplay, BioShock Infinite promises an experience that not only honors the original, but improves upon it in every way possible, delivering the best co-op gameplay of this generation. Single Player: It's a BioShock in space. The player takes on the role of former Pink

Features Key:

Explore the amazing world of paranormal agencies and discover the stories behind them

Set your own traps for supernatural creatures

Face new creatures every time you play a campaign game

Use the special items

Use enough traps to earn the highest level of each game!

How to play:

The entire game is 2D with side scrolling.

Rogue Harvest Recommended controller(s):

Dual analog joysticks like "Gamecube Game "button" used for right, left and jump"

On the other hand, I highly recommend the following devices:

- Xbox 360 Gamepad
- Playstation3 Gamepad
- Xbox One Gamepad

Rogue Harvest Game Updates:

Version 1.0.6 - 1/14/2016 - New added wild creatures: "Upside Down" Agent Axe "Mad Jackal" Fido and "Puddo" Ed. Also, fixed issues with the save file.

Version 1.0.5 - 1/4/2016 - Fixed minor issues in the game.

Version 1.0.4 - 9/24/2015 - Fixed serious issues on Android devices.

Version 1.0.3 - 7/26/2015 - Click to jump now works normally again.

Version 1.0.2 - 7/26/2015 - Flickering are now fixed and the game will not be affected by screen lighting any more.

Version 1.0.1 - 7/25/2015 - Fixed fixed items which could not be picked up.

Version 1.0.0 - 7/24/2015 - The game is now complete. Enjoy!
